ETHICAL CODE

Legality, Transparency and Control represent the basic ethical values on which Master Italia S.p.a. bases its Ethical Code. Recognizing, sharing and accepting those values is paramount, not only to guarantee the correct functioning of the company internal dynamics, but also in order to keep a plausible and steady business reputation.

ATLANTIS TRACKING SYSTEM

The ATLANTIS online tool lets you control the progress of your orders at all times, thanks to the practical animated infographics. Proprietary exclusive technology from ATLANTIS, one of the great advantages of buying from a world leader. By just entering the administration area online, ATLANTIS customers can find real time information on the progress of their order. With the ATLANTIS Tracking System you can monitor a project through all phases of design, production and delivery.

MORE THAN SUSTAINABLE

CERTIFICATIONS

The business ethics, quality, safety and sustainability of its own products and actions represent for Master Italia S.p.a. necessary values. That is why Master Italia S.p.a. has started various certifying processes linked to the product ethics and quality. The standard SA8000 as well as the online platform SEDEX meet the need to highlight and communicate the company values in terms of Social Responsibility on which Master Italia S.p.a. bases its every single action. Ethics and Products go hand in hand at the same pace: an ethical and responsible business policy means that the business enterprise has to create a safe and sustainable product. The real task of Master Italia S.p.a. towards the quality and safety of materials, results in the quality and safety trademarks BY YOUR SIDE (in accordance with the REACH (EC) regulations no. 1907/2006) and laboratory controls with the purpose of guaranteeing quality, safety and sustainability of the materials used.

PHILOSOPHY

LOYALTY, RESPECT, EXCELLENCE.

These are the principles which our company philosophy is based on and in which the Master Italia TEAM deeply believes in. Transparency, correctness and reliability are an essential prerequisite to guarantee not only a flawless service and product, but also a relationship based on mutual trust and on strong and profitable partnerships.

DESIGN

A wide range of high-quality and uniquely styled products from sportswear to street wear, and endless customizations. This is our distinctive feature.

BUSINESS

Our products reach 54 countries all over the world thanks to a faultless organization which has allowed us to gain an unquestionable leadership.

OUR PLUS

CERTIFICATIONS

The attention of Master Italia S.p.a./ Atlantis towards the Quality, Safety and Sustainability of the product is constant and is ever-growing. To questions linked to the climate change, pollution, product safety and health risks, Master Italia S.p.a. has chosen to answer actively by certifying the product quality and safety as well as its own internal policy in terms of ethical and sustainable business practices. Not only does transparency represent for Master Italia a real and objective testing process through a certifying practice, but also and above all a business philosophy.

TRACEABILITY

The transparency of products and information linked to the latter are directly proportional to the perception of quality and safety towards the very same product. The subscription to the voluntary scheme of certification of TRACEABILITY proves and guarantees, according to the Master Italia S.p.a./Atlantis concept of Quality, the transparency of its products to consumers and fosters the awareness in purchases. Selling safe and recognizable products on the market is without a doubt our goal.

+ INNOVATION + CONFORT + MULTIFUNCTIONALITY

GORE-TEX

A GORE-TEX® membrane is an ultra-thin layer of expanded polytetrafluoroethylene (ePTFE). It has more than 1.4 billion pores per cm². It is these pores which make GORE-TEX® materials waterproof, breathable and windproof.

WINDSTOPPER

Products made from GORE® WINDSTOPPER® laminates are completely windproof and guarantee maximum breathability to optimise comfort in the cold and wind. The membrane is completely windproof, but at the same time highly breathable, preventing wind from penetrating and allowing water vapour to be given off.

OEKO-TEX

The OEKO-TEX® 100 STANDARD is an independent internationally standardised control and certification system for raw materials, semi-finished and finished products in the textile sector during all phases of the production process.

DYE-FREE

Eco-friendly technology involving colouring the fabric by hot transfer from the colour polymers directly to the yarn without immersion in water, avoiding waste and the emission of dyes into the water.

SATIN

Satin's smooth, lustrous, uniform surface makes it the most highly appreciated and popular fabric in the fashion world. It is made principally from silk and its history is therefore closely linked to that of silk itself, the exquisite fabric which for millennia characterised the garments worn by the Chinese nobility. It is considered a particularly precious fabric. Today satin can also be made from man-made fibres such as rayon or synthetic fibres such as polyester.

COTTON CORDUROY HAT IN PERFECT CASUAL STYLE.

CORDUROY

The name derives from the French "cour du roi", the king's court where this fabric was used for the servants' hunting uniforms. It was known as the "velvet of the poor" as it was made from cotton, rather than silk as in the case of bagheera velvet. The fabric is very warm as the nap of the ribs forms a cushion of air with an insulating effect.

VELVET

Velvet is the most noble, elegant and sensual of fabrics originating in the Orient in the 13th century, then becoming famous throughout Europe thanks to the talent of Italian craftsmen. The lustrous tones and silky warmth of this fabric evoking long-ago times and regal garments have always been appreciated by designers and artists.

MOLESKIN

The term fustian (also known as moleskin) comes from El Frustat, the Cairo suburb where this fabric originated. It is a dense cotton fabric made from very tough yarns, napped and fluffy on the front and rough on the back. Its distinctive appearance is reminiscent of suede leather. It comes in numerous types, with a smooth or more or less velvety surface.

GORE-TEX®
GORE WINDSTOPPER®

ATLANTIS®
GORE-TEX®

GORE-TEX®

At the heart of GORE-TEX® products is an extremely thin membrane that's durably waterproof, windproof, and breathable. It has over 9 billion pores per square inch.

WINDPROOF

The volume of air that passes through one cubic foot of fabric in one minute (cfm) is 1.0 or less, creating a truly windproof membrane.

BREATHABLE

The pores are 700 times larger than a water vapor molecule which means perspiration passes right through. This is what makes the membrane breathable.

WATERPROOF

The microscopic pores on the membrane are 20,000 times smaller than a water droplet, which means water droplets can't pass through.

GORE WINDSTOPPER®

Products made with GORE® WINDSTOPPER® fabrics are totally windproof and deliver maximum breathability to keep you comfortable in cool and windy weather conditions.

TOTALLY WINDPROOF

Protects the body's warmth from the chilling effects of wind by using a totally windproof membrane.

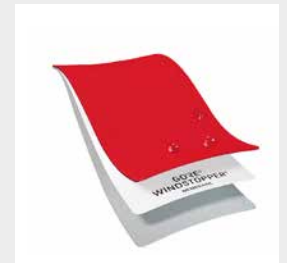

MAXIMUM BREATHABILITY

Minimizes overheating and moisture vapor build up by allowing perspiration to escape easily through the extremely breathable membrane.

WATERPROOF

A durable outer fabric treatment (DWR) provides you additional protection of water repellency.
